PERI Institute of Technology

Department of Research and Development

Overview

A reputation for excellence in research supported by a high calibre staff is reflected in the demand for entry to PERI Institute of Technology programmers from high achieving students. Committed to excellence in fundamental research as well as the development of innovative technologies for the future, PERIT offers a quality research training experience for its students. The Institute maintains its relevance to world-class research by linking with industry and business through local and international research networks.

RESEARCH ACHIEVEMENTS

Total Number of Journals Published	Total Number of Patent Published	Total value of Funded Project
545	**68**	**19.88 Lakhs**

Objectives

1. To create zeal among the students towards research and innovation.

2. To work closely with the industrial needs that eventually will result in new or improved products, processes, systems or services that can increase the company's productivity.

3. Innovative business activity creating added value in the global economy.

4. Innovation-friendly society aimed at long-term development.

5. To have Periodical interactive session with entrepreneurs/industrialists.

6. To enhance skill development training and self employment opportunities.

7. To serve government by taking up sponsored projects.

8. To conduct research work and survey for identifying entrepreneurial opportunities for our students and to organize talent show, in-house exhibition, business stall, etc.
