20. EVALUATION OF INTERNSHIP

20.1 Summer Internship

i. After completing the summer internship, the students shall register in the immediate respective odd semester. It will be evaluated at the end of the semester, along with an external laboratory examination.

ii. At the time of registration, the student must produce the summer internship satisfactory report and certificate taken from the organization to be considered for evaluation.

iii. A student will be required to submit a summer internship report to the concerned Department and appear for an oral presentation before the departmental committee.

iv. The departmental committee consists of the Head of the Department; the mentor/supervisor of the internship; and a senior faculty member of the Department.

v. The report and the oral presentation shall carry 50% weightage each. It shall be evaluated for a hundred (100) marks. There shall be no internal marks for the Summer Internship.

vi. A student shall secure a minimum of 50% of marks for successful completion. If a student fails, he/she shall reappear as and when the Institution conducts semester supplementary examinations.

vii. Completion of internships is mandatory. If any student fails to complete an internship, he/she will not be eligible for the award of a degree. In such cases, the student shall repeat and complete the internship.

20.2 Final Semester Internship Cum Project Work

i. The student can also undergo a semester-long internship in an industry / academic / research institution.

ii. The project work carried out in an industry / academic/research institution shall be jointly supervised by a supervisor of the department and an expert from the organization as a joint supervisor.

iii. The student shall be instructed to meet the supervisor periodically and to attend the review committee meetings to evaluate the progress. The review meetings, if necessary, may also be arranged in online mode with prior approval from the Head of the Institution and a suitable record of the meetings shall be maintained.

iv. The review committee shall consist of the supervisor, the coordinator from the industry and the project coordinator from the Department, and the evaluation procedure follows clause 17.1.

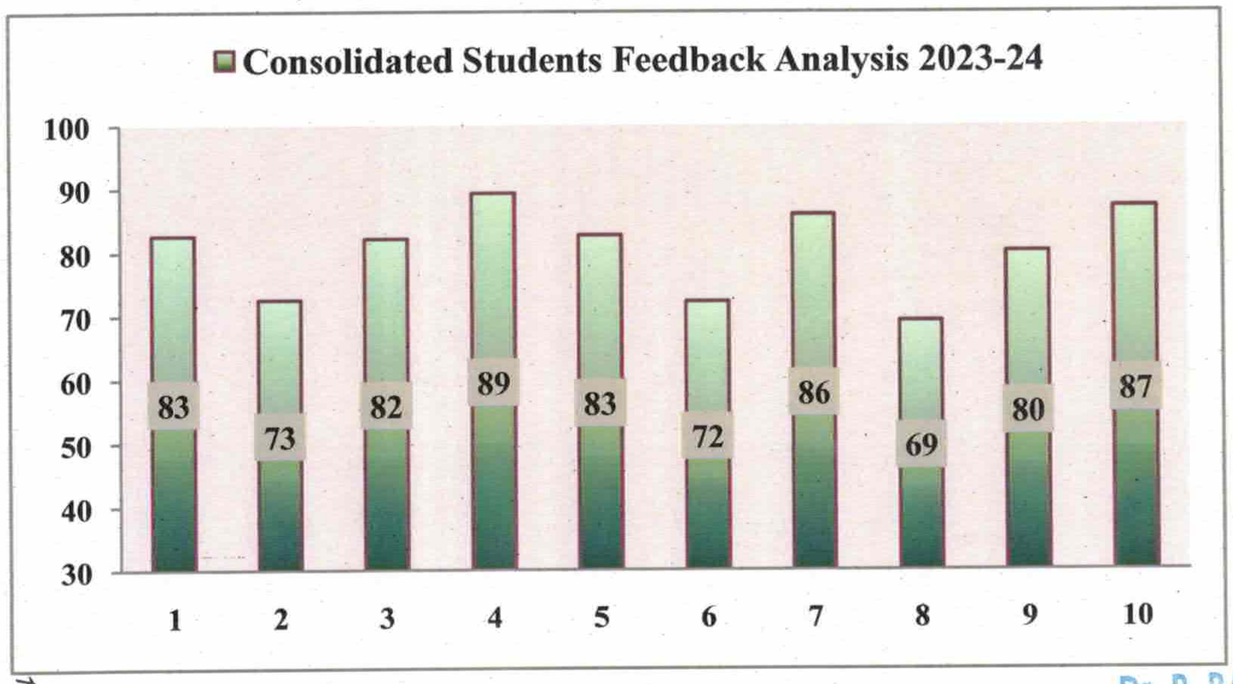

v. At the end of the semester, the candidate shall submit an internship completion certificate and a project report on the work carried out during the internship, and the evaluation procedure follows clause 17.2.

vi. If the student has carried out a standalone project and completed the internship separately, the project work will be evaluated externally, and the internship will be evaluated internally (clause 20.1).

19.2 Course Offered by an External Agency

i. The Department shall mark the student's attendance for the remaining courses in that semester, excluding the skill course in all the calculations of mandatory attendance requirements upon producing a valid certificate as approved by the concerned Board of Studies.

ii. The student is deemed to have fulfilled the course's attendance requirement and acquired the credits assigned to the course.

iii. The credits shall be awarded to the student upon producing the Course Completion Certificate from the agency/professional bodies as approved by the Board of Studies.

iv. A committee shall be formed at the College level to evaluate the grades/marks given for a course by external agencies and convert them to equivalent marks/grades.

v. If the course involves certification from an identified firm/company, then 20% of the total marks will be included in the internal assessment marks, 30% will be included in the marks provided by the firm and 50% shall be evaluated by the respective Course Coordinators of the college by conducting appropriate theory and/or laboratory tests.

vi. If there is no certification from the firm/company, then 50% will be included in the marks provided by the firm and 50% shall be evaluated by the respective Course Coordinators of the college by conducting appropriate theory and/or laboratory tests.

vii. A student must secure 50% of the marks allotted for passing the course.

viii. The recommended conversions and appropriate grades/marks are to be approved by the Academic Council.

20.2 Final Semester Internship-Cum Project Work

i. The student can also undergo a semester-long internship in an industry / academic / research institution.

ii. The project work carried out in an industry / academic/research institution shall be jointly supervised by a supervisor of the department and an expert from the organization as a joint supervisor.

iii. The student shall be instructed to meet the supervisor periodically and to attend the review committee meetings to evaluate the progress. The review meetings, if necessary, may also be arranged in online mode with prior approval from the Head of the Institution and a suitable record of the meetings shall be maintained.

iv. The review committee shall consist of the supervisor, the coordinator from the industry and the project coordinator from the Department, and the evaluation procedure follows clause 17.1.

v. At the end of the semester, the candidate shall submit an internship completion certificate and a project report on the work carried out during the internship, and the evaluation procedure follows clause 17.2.

vi. If the student has carried out a standalone project and completed the internship separately, the project work will be evaluated externally, and the internship will be evaluated internally (clause 20.1).

Subject: Appreciation for Thesis Evaluation Contribution

Dear prof Dr N.Tamiloli,

I am writing to express my heartfelt gratitude for your invaluable contribution as a thesis evaluator Syed Abdul Gaffar thesis, titled "INDOOR AIR QUALITY STRATEGIES FOR AIR CONDITIONING AND VENTILATION SYSTEMS WITH THE SPREAD OF THE GLOBAL CORONAVIRUS EPIDEMIC" at Bir Tikendrajit University during the academic year 2024. Your expertise and thoughtful insights have been instrumental in guiding our students and elevating the quality of their research work.

The students have greatly benefited from your thorough evaluations and constructive feedback. Your meticulous attention to detail and encouragement of innovative thinking have left a lasting impact on their academic and professional growth.

We are fortunate to have had your support in fostering a culture of academic excellence and research at our university. Your dedication and commitment to upholding high standards in thesis evaluation are truly commendable.

Once again, I extend my deepest appreciation for your efforts and look forward to future collaborations. Please do not hesitate to reach out if there is any way we can support your endeavors.

Thank you once again for your exceptional contribution.

Yours sincerely,

Kabita Choudhary

Department of Electrical and Electronics Engineering

Degree and Programme		B.E & EEE	
Semester and Section:		IV / -	
Subject Code and Subject:		EE8401– Electrical Machines-II	
Core / Elective:		Core	
L T P C	2 2 0 3	No. of Credits:	3
Date of commencement:		18.02.2021	
Faculty Incharge:		A.MAHESHWARI	

Definition:

To understand the Electrical Machines and to become familiar with the constructional details. Characteristics, types, principles, operations related equations equivalent circuits, testing methods, control methods and applications etc, of A.C. Machines and Special. Also understand the speed control systems, methods, equations and components etc. And also understand the performance of machines and their terms and definitions etc.

Course Objectives:

To impart knowledge on the following Topics

- Construction and performance of salient and non – salient type synchronous generators.
- Principle of operation and performance of synchronous motor.
- Construction, principle of operation and performance of induction machines.
- Starting and speed control of three-phase induction motors.
- Construction, principle of operation and performance of single phase induction motors and special machines.

Course Outcomes:

- Ability to understand the construction and working principle of Synchronous Generator
- Ability to understand MMF curves and armature windings.
- Ability to acquire knowledge on Synchronous motor.
- Ability to understand the construction and working principle of Three phase Induction Motor
- Ability to understand the construction and working principle of Special Machines
- Ability to predetermine the performance characteristics of Synchronous Machines.

SYLLABUS

UNIT I SYNCHRONOUS GENERATOR 6+6

Constructional details – Types of rotors –winding factors- emf equation – Synchronous reactance – Armature reaction – Phasor diagrams of non salient pole synchronous generator connected to infinite bus-- Synchronizing and parallel operation – Synchronizing torque -Change of excitation and mechanical input- Voltage regulation – EMF, MMF, ZPF and A.S.A methods – steady state power- angle characteristics– Two reaction theory –slip test -short circuit transients - Capability Curves

UNIT II SYNCHRONOUS MOTOR 6+6

Principle of operation – Torque equation – Operation on infinite bus bars - V and Inverted V curves – Power input and power developed equations – Starting methods – Current loci for constant power input, constant excitation and constant power developed-Hunting – natural frequency of oscillations – damper windings- synchronous condenser.

UNIT III THREE PHASE INDUCTION MOTOR 6+6

Constructional details – Types of rotors –- Principle of operation – Slip –cogging and crawling- Equivalent circuit – Torque-Slip characteristics - Condition for maximum torque – Losses and efficiency – Load test - No load and blocked rotor tests - Circle diagram – Separation of losses – Double cage induction motors – Induction generators – Synchronous induction motor.

UNIT IV STARTING AND SPEED CONTROL OF THREE PHASE INDUCTION MOTOR 6+6

Need for starting – Types of starters – DOL, Rotor resistance, Autotransformer and Star- delta starters – Speed control – Voltage control, Frequency control and pole changing – Cascaded connection-V/f control – Slip power recovery scheme-Braking of three phase induction motor: Plugging, dynamic braking and regenerative braking.

UNIT V SINGLE PHASE INDUCTION MOTORS AND SPECIAL MACHINES 6+6

Constructional details of single phase induction motor – Double field revolving theory and operation – Equivalent circuit – No load and blocked rotor test – Performance analysis – Starting methods of single-phase induction motors – Capacitor-start capacitor run Induction motor- Shaded pole induction motor - Linear induction motor – Repulsion motor - Hysteresis motor - AC series motor- Servo motors- Stepper motors - introduction to magnetic levitation systems.

Program Outcomes:	
PO1: Apply the Mathematical knowledge and the basics of Science and Engineering to solve the problems pertaining to Electronics and Instrumentation Engineering.	
PO2: Identify and formulate Electrical and Electronics Engineering problems from research literature and be ability to analyze the problem using first principles of Mathematics and Engineering Sciences.	
PO3: Come out with solutions for the complex problems and to design system components or process that fulfill the particular needs taking into account public health and safety and the social, cultural and environmental issues	
PO4: Draw well-founded conclusions applying the knowledge acquired from research and research methods including design of experiments, analysis and interpretation of data and synthesis of information and to arrive at significant conclusion.	
PO5: Form, select and apply relevant techniques, resources and Engineering and IT tools for Engineering activities like electronic prototyping, modeling and control of systems and also being conscious of the limitations.	
PO6: Understand the role and responsibility of the Professional Electrical and Electronics Engineer and to assess societal, health, safety issues based on the reasoning received from the contextual knowledge.	
PO7: Be aware of the impact of professional Engineering solutions in societal and environmental contexts and exhibit the knowledge and the need for Sustainable Development. Apply the principles of Professional Ethics to adhere to the norms of the engineering practice and to discharge ethical responsibilities.	
PO8: Apply the principles of Professional Ethics to adhere to the norms of the	

engineering practice and to discharge ethical responsibilities	
PO9: Function actively and efficiently as an individual or a member/leader of different teams and multidisciplinary projects.	
PO10: Communicate efficiently the engineering facts with a wide range of engineering community and others, to understand and prepare reports and design documents; to make effective presentations and to frame and follow instructions.	
PO11: Demonstrate the acquisition of the body of engineering knowledge and insight and Management Principles and to apply them as member / leader in teams and multidisciplinary environments.	
PO12: Recognize the need for self and life-long learning, keeping pace with technological challenges in the broadest sense.
