20.02.2019

“Visual, nonverbal and aural communication”

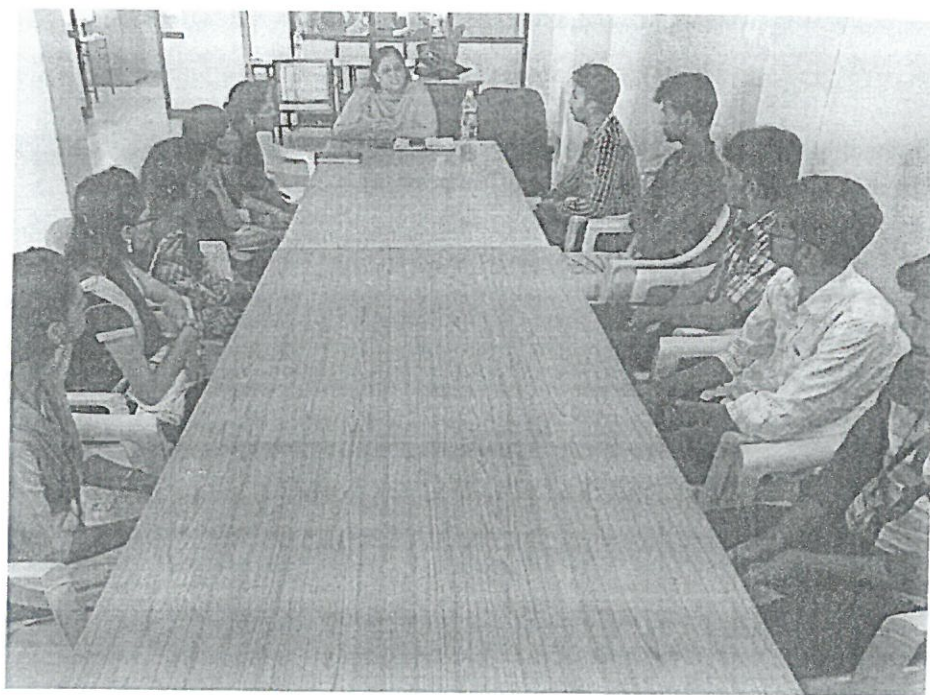

Mrs.P. Anuradha,M.B.A,Soft Skill trainer,Aassan Consulting Service,Coimbatore-19

Soft skill program was conducted in Peri Institute of Technology from 12.02.2019 to 15.02.2019. **Mrs.P. Anuradha**, Sr.Soft Skill trainer Aassan Consulting Service was the speaker for four days program.

The day started with the welcome address by Mrs.Jasmine jeni Professor in the department of Electronics and Communication Engineering. The Kuthuvizhaku was enlightened by the Principal,Dr.R.Palson Kennedy, the chief guests, **Mrs.P. Anuradha** ,Dr.P.R.Jasmine Jeni, Head of the Department,ECE and.Dr.R.Palson Kennedy delivered the Presidential Address.

It was an occasion for the women of PERI Institute of Technology to pause for a moment and reflect on ourselves, to appreciate how much has been done and what more needs to be done in the field of education and personal growth. Mrs.P. Anuradha with her speech, inspired the students taking her life example and made the students understand that if you put your heart and soul into something that you do, you will be recognised and will reach heights.

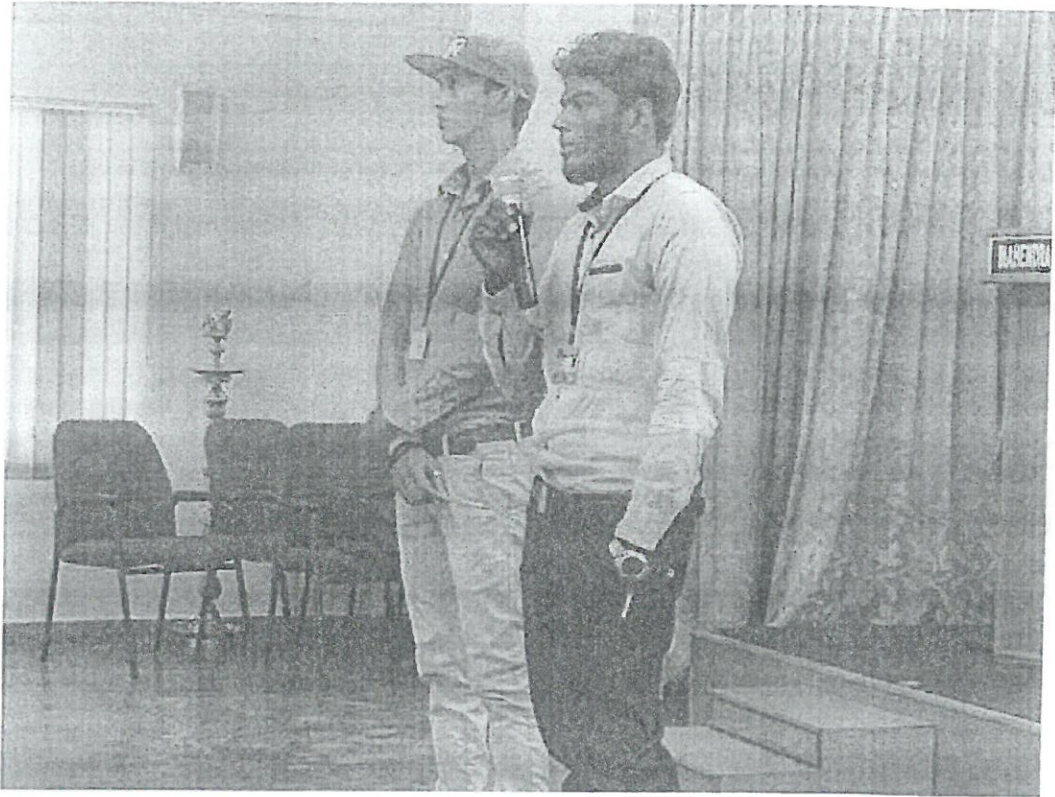

While hard skills teach us what to do, soft skills tell us how to apply our hard skills in a social environment.

The focus is to develop a wide variety of soft skills starting from communication, to working in different environments, developing emotional sensitivity, learning creative and critical decision making, developing awareness of how to work with and negotiate with people and to resolve stress and conflict in ourselves and others.

The uniqueness lies in how a wide range of relevant issues are raised, relevant skills discussed and tips for integration provided in order to make us effective in workplace and social environments.

The key areas addressed are conversation skills, group skills, persuasion skills, presentation skills, critical and creative thinking, emotional skills, positive thinking and vocational skills

TOPIC DISCUSSED

Day 1: The world of visual culture

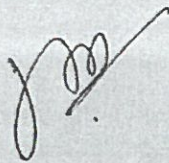

Day 2: The world of visual culture

Day 3: The aural: Its relevance and impact & The body and the way it communicates

Respected Ma'am/Sir,

Greetings from Rubicon!

It is my pleasure to introduce **Rubicon**; **Rubicon** was incepted with a dream of a world where every youth has the power to transform lives for themselves and others around them. We strongly believe that every youth has the potential to make a difference in their personal lives as well as the community around them. We build competencies, which would help youth seek careers and prosper in their career of choice. We bring excitement into learning by developing and harnessing their curiosity and intrinsic motivation for learning.

Rubicon's "Lifeskills" Program, supported by Barclays aims at improving the employability skills of the youth. This initiative is supported by Barclays. Under this program, students will be trained by Corporate Trainers to enhance their Life skills which would help them significantly to increase their chance of succeeding in a job interview. This program is being launched with limited no of colleges in India.

We are looking forward to partner with your institute and plan to run the below initiatives:

1. **24 hrs. classroom training on Interview Skills (Details mentioned below)**. Due to lockdown this is divided into two parts – 18 hours virtual and 6 hours classroom training. 18 hours of virtual training will be delivered by a Corporate Trainer using Zoom/Webex as a platform – training will be conducted 2 hours per day for 9 days. 6 hours of face to face training will be done once the lockdown is lifted and before the campus placement starts.

2. **Industry visit of students to various organizations.**

3. **Post Placement Mentoring and Career Counselling support to placed students for one year.**

In Life Skills training, we will be covering the below topics:

1. Organizational Structure
2. Public Speaking
3. Presentation Skills
4. E-mail Etiquette
5. Grooming
6. Group Discussion

Report of the function “International Yoga Day Celebration – 2019”

International Yoga Day – 2019 was celebrated in our college on 21st June, 2019. The function started with the introduction of the chief guest by Dr.R.Palson Kennedy, Principal of the college and he welcomed all the gathering.

A certified yoga master Mrs. Lalitha from Chennai was the chief guest. Mrs. Lalitha explained the importance of Yoga in the life of youngsters especially students. She explained that regular practice of Yoga will help the students achieve better mental and physical health. Mrs. Lalitha started Yoga demonstrations with the Yoga prayer. After which a few warm up and simple Asanas were performed by the students and the teachers enthusiastically and the importance of these Asanas were explained simultaneously by Mrs. Lalitha. She conducted a 2 minutes meditation session with the students and teachers and professed the regular use of meditation in one's life. The function ended with a vote of thanks successfully.

ABOUT WORKSHOP:

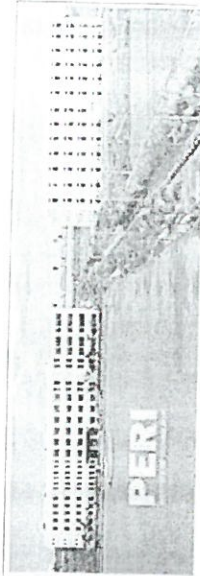

The objective of this workshop is to provide basic ideas for MATLAB beginners and also focusing on ability to understand the M-scripts and can able to modify M-scripts according to researcher need. During training session, a clear idea of the basic commands and functions; how it works & executions with help of suitable examples and also demonstration to generalize MATLAB code for any specific task. Once, MATLAB basic is strong, then, it is easy to implement any logic from any field including Digital Image Processing, Wireless Communication etc. Workshop assures that the participant can write MATLAB code to solve any specific algorithms. After completion of this workshop, one can easily convert your ideas into research paper and also share the knowledge with the students to do project by their own in the area of digital image processing and wireless communication.

TARGET OF THE WORKSHOP:

- Introduction to MATLAB
- Basic commands and its execution
- Colon function
- Different types of plotting a graph
- Understand M-scripts with suitable examples
- Minimum two to three MATLAB code can be written by participant

RESOURCE PERSON:

Mr. Kannadasan. K, Assistant Professor, PERI Institute of Technology, Mannivakkam. He has More than nine years of hands on experience in MATLAB software and published research article in well-known International and National Journals. PERIT always provides platform to explore the faculty as well as student potential in their own area of interest and ensure knowledge is imparted with expertise in hands on training.

ABOUT THE INSTITUTION:

PERI Institute of Technology (PERI IT) was established in 2010 by the PERI Educational and Charitable Trust with the objective of providing quality technical education. The Institute is built at Mannivakkam, Chennai in a sprawling area of 15 acres replete with A/C classrooms, well equipped labs, A/C transport, cafeteria and a vast library. PERI IT offers both B.E. and M.E. courses and is recognized as an institution offering technical education by AICTE, New Delhi. It is affiliated to Anna University of Technology, Chennai. The PERI Educational and Charitable Trust was founded in 2007. The vision of the trust is to provide a world class nodal centre of education where academics, communication, comprehension, visualization, practical application and leadership skills are imparted through encouraging research, training and development in technical and non-technical areas.

List of Courses Offered:

UG – B.E

- Civil Engineering
- Electrical and Electronics Engineering
- Mechanical Engineering
- Electronics & Communication Engineering
- Computer Science & Engineering

PG – M.E

- Applied Electronics
- Communication Systems
- Computer Science
- Power Electronics & Drives

INSTITUTION STRENGTHS:

- ✓ Skill development centre in association with Propeller Technologies, Chennai.
- ✓ The college has signed MOU with top MNCs and excellent academic record by experienced faculty members.
- ✓ Good placement as priority action Pollution free learning environment - modern day Engineering and Technology

ABOUT THE DEPARTMENT:

Electronics and Communication Engineering deals with the transmission of information via various electronic channels. In today's highly digitized world, where electronic products are a daily necessity, the job of the ECE engineer offers tremendous scope. ECE engineers work on designing equipment such as PCB boards, phones, computers, routers, switches, multiplexers, electronic switching systems and fiber optics. Opportunities are also available in research and development of latest communication technologies and tools. Classroom learning is complemented by practical in PERIT's several well equipped laboratories such as Engineering Practices Lab, Electronic Circuits Lab, Digital Lab, Linear Integrated Circuits Lab, Microprocessor & Microcontroller Lab, Digital Signal Processing Lab, Electronic Design Lab, VLSI Lab etc.

VISION:

- To be recognized by the society as an excellent department and to emerge as a "center of excellence" in the field of Electronics and Communication Engineering that imparts high quality education which create engineers capable of providing comprehensive solutions to the challenges in the latest technological trends.

MISSION:

- To inculcate research oriented learning amongst students.
- To provide quality education to make the students Entrepreneur and Employable.
- To produce graduate with ethical values and thirst for lifelong learning.

This is to inform you that our department is going to organize a Two days workshopon "Hands on Training in Matlab Software and Simulink Tool"on 20thand 21st March 2021. The objective of this workshop is to motivate and explain well about the matlab coding and enhance the coding skill. So faculty members, PG students and Research scholars are requested to make use of this workshop and enhance the coding skill. The session details given as follows:

Resource Person	:	Mr. K. KANNADASAN
Date	:	20.03.2021 and 21.03.2021
Venue	:	DSP Lab
Time	:	09.00 a.m to 5.00 p.m

Two Days Workshop
On
"Hands on Training in MATLAB Software & Simulink Tool"
20th March – 21st March 2021

About the Event:

The Department of Electronics and Communication Engineering, associated with PERI Association of Communication Engineers (PEACE) organized Two days Workshop on "Hands on Training in MATLAB Software and Simulink Tool" on 20.03.2021 & 21.03.2021. Nearly, 32 participants are interested and enrolled their registration for this workshop in this pandemic situation. The main target of this workshop is to cultivate the MATLAB coding Skill among researchers, faculty members and PG Scholars. The inaugural function commenced with invocation and lighting of kuthuvizhaku. Mr. K. Kannadasan, Assistant Professor, PERIIT was the Resource Person of the day. Mrs. Sreedevi, Assistant Professor of ECE Department gave a warm welcome to the gathering. He also thanked the management for organizing such a wonderful knowledge sharing workshop. Principal of PERI Institute of Technology, Dr. R. Palson Kennedy presided over the function and in his speech he appreciated the department of ECE for conducting this two days workshop program and he insisted the young participants to concentrate on research and publications with their innovative and creative ideas. He extended his hearty welcome to the luminaries on the dais, session chair persons of various departments, HODs, faculties, participants and student invitees for this function. He also extended his warm welcome to the resource person of the workshop. Mrs. Abisha J Benelyn, HOD/Department of ECE gave a brief introduction about two days workshop and motivated the participant to enrich the coding ability. In continuation with the inauguration, the workshop began with introductory session on the overview of MATLAB software, Command Window, MATLAB basics and executed basic programs for understanding matrix manipulation in the MATLAB environment. In the two days' workshop, the participants had hands on practice to get familiar with MATLAB Environment, Get familiar with MATLAB Commands, How to write Mathematical Expressions in MATLAB, How to write a simple MATLAB Program, Variables and Arrays, Multidimensional arrays, Initializing variables in MATLAB, Reading data from notepad and excel file, Plotting, Multiple Plots: Subplots, Additional 2D plots, While loop, for loop, Reading and visualize image data, Displaying Output data, Scalar & Array Operations. Finally, Mr. S. Thiagarajan, AP/ECE/PERIIT delivered the vote of thanks.

Outcome of the Program:

The objective of this workshop is to provide basic ideas for MATLAB beginners and also focusing on ability to understand the M-scripts and can able to modify M-scripts according to researcher need. During training session, a clear idea of the basic commands and functions; how it works & executions with help of suitable examples and also demonstration to generalize MATLAB code for any specific task. Once, MATLAB basic is strong, then, it is easy to implement any logic from any field including Digital Image Processing, Wireless Communication etc. Workshop assures that the participant can write MATLAB code to solve any specific algorithms. After completion of this workshop, one can easily convert your ideas into research paper and also share the knowledge with the students to do project by their own in the area of digital image processing and wireless communication.

Target of the Workshop:

- Introduction to MATLAB
- Basic commands and its execution
- Colon function
- Different types of plotting a graph
- Understand M-scripts with suitable examples
- Minimum two to three MATLAB code can be written by participant

Mrs. Sreedevi, Assistant Professor, Department of ECE gave a warm welcome to the gathering and thanked the management for organizing such a wonderful knowledge sharing workshop.

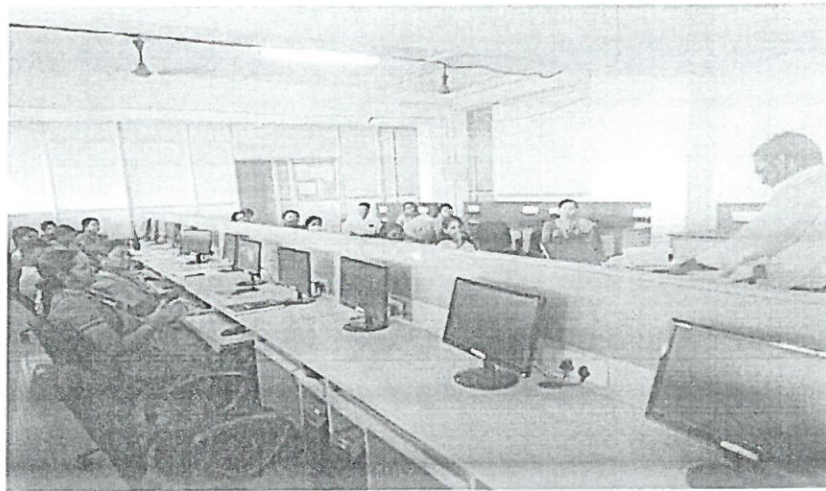

Dr. R. Palson Kennedy, Principal, PERIIT inaugurated function with his presence and lighting of kuthuvizhaku.

Dear Sir,

Sub: Requisition to conduct a workshop - Reg

I would like to conduct **THREE DAYS WORKSHOP ON PCB** in the college premises from 18.12.2019 to 20.12.2019. The students from second and third years are going to participate in this workshop. The purpose of this workshop will provide information about P-CAD PCB, a full-featured printed circuit board design system and employability skills. We hope that your lecture will be very informative and provide our students an understanding of the expectations of industry.

Thank you for your consideration

Sincerely,

WORKSHOP ON PCB DESIGN

About the Workshop:

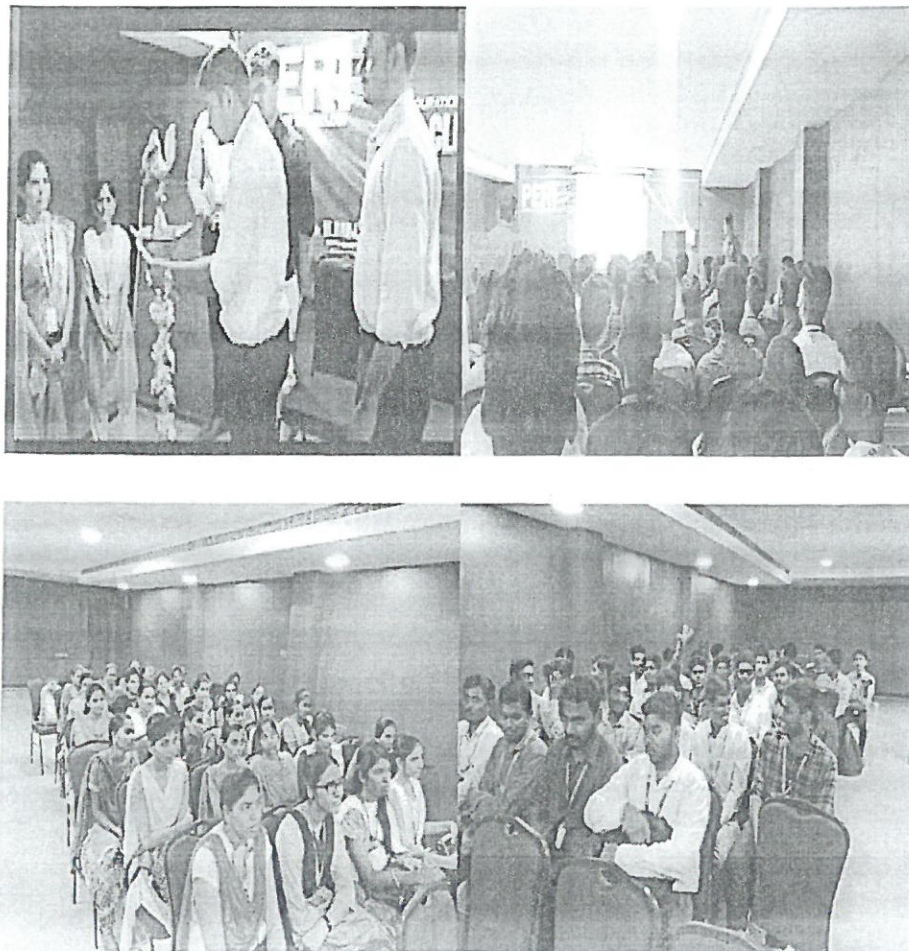

PERI Association for communication Engineers (PEACE), organized a **THREE DAYS WORKSHOP ON PCB** in the college premises from 18.12.2019 to 20.12.2019. This workshop was presented by Mr. Ranjith, Managing Director, CCTI, Coimbatore.

The Vice Principal of the college Mr. B. Magesh, Head of the Department Mrs. Abisha J. Benelyn, the coordinators of PCB CLUB - Mrs. R. Maheswari (AP/ECE) & Mrs. V. Sharnya (AP/ECE) and the special invitees, turned up for the occasion. All the students from third year and second year of ECE department took part in the inauguration.

The event started by lighting the kuthuvilakku by the chief guest, the Vice principal, and the HOD. It was followed by felicitation of guest speakers and by vice principal. The vice principal and the head of the department addressed the students.

The workshop started by 9:20 am. The resource person acquainted students about all the PCB sessions so that they will be able to put layout, design, implement and fabricate their own PCB's. The Schedule was as follows,

Day 1: Introduction of the software's used in PCB

Day 2: Procedural training

Day 3: Actual fabrication by the students for their designs

DAY 1 : ACTIVITY

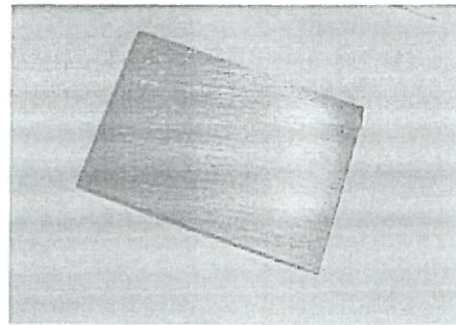

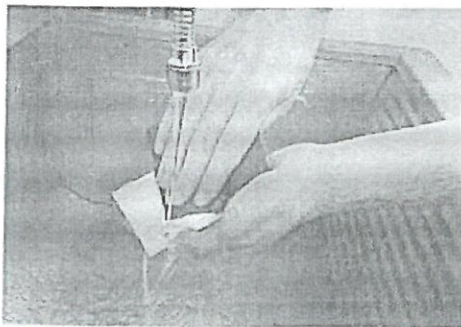

Training programme in PCB Designing Using KiCAD Software:

KiCad is a open source (GPL) integrated package for schematic circuit capture and PCB layout.

Steps involved in PCB Design:

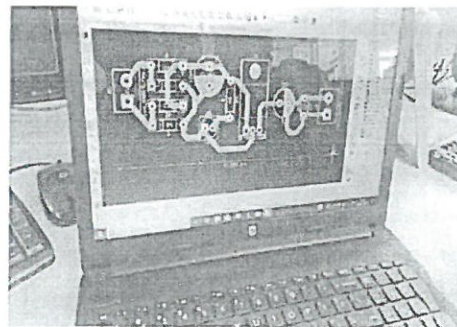

Step 1: Polishing -

The copper board is rubbed well using a scrubber in order to remove rust or corrossions

Step 2: Making A Print File –

The schematic, Footprint and Layout for the PCB Board are done using a KiCAD software. Finally the Layout is converted into a PDF file suitable to take print in a 170 GSM thickness paper by using ADOBE Distiller software.

DAY 2 : ACTIVITY

The details are as follows:

Step 3: Ironing

The printed paper is then wound around the polished PCB board and ironed at room temperature.

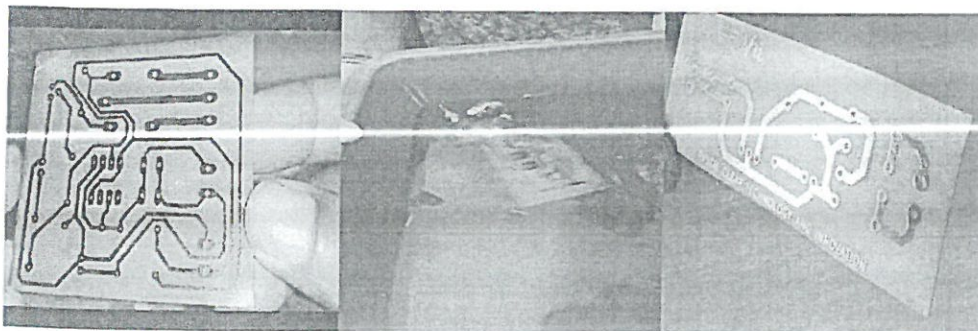

Step 4: Etching :

A process in which the printed board is immersed in a solution constituting a mixture of Ferric Chloride and water in a ratio of 1:3.

DAY 3: ACTIVITY

The session details are as follows:

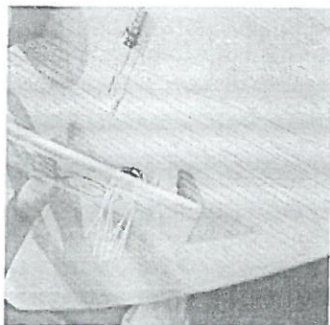

Step 5: Drilling - Making holes in the board so as to assemble the components in their respective places.

Valedictory Function:

The function was honored by principal of the college Dr. R. Palson Kennedy, Head of the Department Mrs. Abisha J. Benelyn, Head of the Department - (EEE) Mrs. SREEDEVI, & Mr. Ranjith, Managing Director, CCTI, & participants. The welcome address was given by Mrs. V. Sharnya, Coordinator of PCB CLUB. The participants were awarded with their certificates by the principal of the college Dr. R. Palson Kennedy. A student from second year and a student from third year volunteered themselves to give feedback about this workshop and vote was thanks of presented by the Head of the Department Mrs. Abisha J. Benelyn and the session ended with National Anthem.

Date: 01.07.2018

CIRCULAR

This is to inform you that our department is going to organize one day workshop in Mini Project demonstration on "Ultrasonic Sensor using Arduino Board". The objective of this workshop is to motivate and to share your innovation in this session. So students make use of this platform for your future project ideas. Students from third year and final year are requested to participate in this event without fail. The session details given as follows:

Resource Person : Mr. Ajay Sobi and Mr. K. Ganeshkumar ,
PERIIT Alumini, Chennai.
Date : 06.07.2018
Venue : Conference Hall
Time : 9.00 a.m to 4.30 p.m

Mini Project demonstration on
"Ultrasonic Sensor using Arduino Board"

Mr. Ajay Sobi and Mr. K. Ganeshkumar
Alumini, PERIIT, Chennai

About Us:

Mr. Ajay Sobi and Mr. K. Ganeshkumar (IV ECE) have presented and shared their mini-project work with II ECE students for their future endovenous in the field of research activities held on 06.07.2018 at RF Microwave Lab, Department of ECE. Mr. Ajay Sobi and Mr. K. Ganeshkumar is an active member of ROBO Club, which has associated with the PERI Association of Communication Engineers (PEACE). The objective of ROBO Club is to bring out the innovative ideas from student sectors by supporting financial and conducting various workshops for their future welfare of the student in the research activities.

Acknowledgment:

First and foremost, we would like to express our sincere gratitude to Dr. Jasmin Jeni, Head of the Department and all the department staffs who have supported and encouraged us to work on mini-project. We were privileged to experience a sustained enthusiastic and involved interest from their side. This fueled our enthusiasm even further and encouraged us to boldly step into what was a totally dark and unexplored expanse before us.

Objective:

The main objective of this mini-project is to detect the object or obstacle clearly by proper distance measurement of the object or obstacle and also calculate the direction of the object under movement.

Short Description about Mini-project:

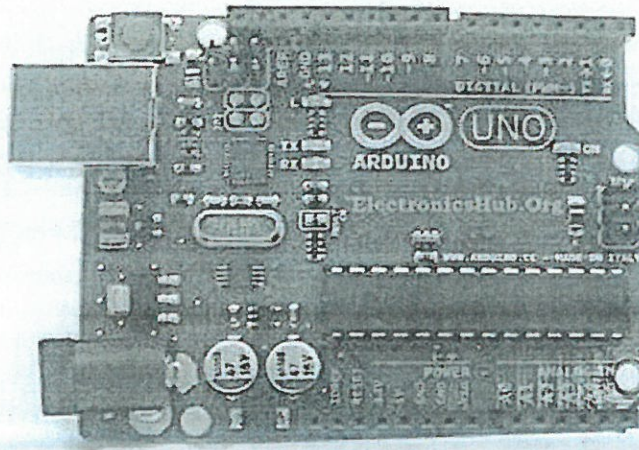

Ultrasonic sensor emits an ultrasound at 40 KHz which travels through the air and if there is an object or obstacle in its path it will be bounced back to the module considering the travel time and speed of the sound can be involved to calculate the object or obstacle distance. The ultrasonic sensor (HC-SR04)

module has 4 pins, ground, Vcc, Trig and echo. The ground and Vcc pins of the module needs to be connected to the ground and the 5 volt pins on the Arduino board respectively, and the trig and echo pins to any digital input/output pin on the Arduino board. In order to generate the ultrasound you need to set the trig on a high state for 10 micro second. That will send out an 8 cycle sonic burst which will travel at the speed of sound.

Mr. Ajay Sobi and Mr. K. Ganeshkumar (IV ECE) have demonstrated their Mini-Project work and share their knowledge about Arduino Board applications to II ECE 'A' Students at BS-6 Class room.

Students involved in Robotic project and Arduino Module Kit has shown in the above figure.
